The Phoenix Senior Living Difference

At Phoenix Senior Living, you can enjoy a rewarding lifestyle with personalized, comprehensive support that promotes physical and mental health. We are a company of people serving people, and everything we do is deeply reflective of that.

CEO Jesse Marinko has witnessed first-hand the beneficial effects that intergenerational activities can provide. Watching his son and father-in-law handcraft a canoe, he saw their loving connection strengthen and realized that amazing things can happen when projects are done hand-in-hand with a passionate spirit.

Today, the canoe symbolizes our care and dedication to every relationship shared at Phoenix Senior Living.

Voice of the Customer

The Phoenix Senior Living Experience through the words of our families and friends:

"When I decided to move from North Carolina to this area, I visited about 20 senior living communities. All are different. When Phoenix announced their opening, I visited and found the place for me. I moved in three months after the opening, so I have been here approximately two and a half years. The apartment floor plan is perfect for me, especially the spacious deck. More activities are offered than I can accommodate, and the staff is friendly and professional. I feel very safe here, my needs are being met, and I am glad to call this home." **– The Phoenix at Braselton**

"The Pearl has been amazing starting with our first visit. Our move was made with such great ease thanks to the guidance from the staff. I thank these people daily for the love and support Mom receives. All of the staff have shown great love and pride in their care for these residents."
– The Pearl at Dallas

"The staff at The Phoenix is the best I've ever seen. We've vetted several senior living facilities, and none compare to the staff at The Phoenix. We moved my mother-in-law in about six months ago, and the level of care is better than anywhere else that we've experienced. And the staff in the Memory Care unit is truly exceptional."
– The Phoenix at Milton

"I am very pleased with the quality of care offered. Everyone has gone above and beyond any expectations that I had – from the cleaning staff, food staff and all the way to the top. I was very impressed with the staff, who made the experience a lot easier than it could have been, especially living a couple hours away."
– The Retreat at Loganville

"This community has been a great fit for our mother. The employees are very helpful and care about the seniors. The place is very clean, and all the staff have been very friendly. The food has been very good with a nice selection at every meal. The care from housekeeping, physical therapy and nursing has been very good. Overall, we're very happy with her care."
